WORK EXPERIENCE

Dataesg Solutions LLC React Developer (Remote)	Greater Boston Nov 2021-Feb 2023
--	-------------------------------------

- Developed the client-side of a semantic search engine using **React.js** and **TypeScript** to deliver a user-friendly search experience.
- Implemented efficient state management with **Redux Toolkit**, reducing complexity through its built-in utilities for immutable updates and memoization.
- Collaborated with **backend** and **machine learning** engineers to integrate **RESTful APIs** and custom-trained ML models, ensuring accurate search results and improving application responsiveness and performance.

Cretrix LLC React Developer	Yerevan, Armenia June 2023-Dec 2024
---------------------------------------	--

- Developed and maintained front-end applications using **React** and integrated **GraphQL** with **Apollo Client** for precise and flexible data queries, improving application performance.
- Collaborated with **Ruby** developers to ensure seamless integration between front-end and back-end systems.
- Worked closely with fellow **React developers** to manage and merge code updates effectively using **Git**.
- Integrated various libraries such as **Google Maps** and **React Quill** to enhance UI functionality and improve user experience.
- Implemented **responsive design** using **Tailwind CSS**, **Material UI**, and best design practices to ensure optimal performance across various devices and screen sizes.
- Configured and optimized **Vite** and **Webpack** to improve build performance, reduce bundle sizes, and streamline the development workflow.
- Partnered with **UI/UX designers** to transform Figma designs into intuitive, user-friendly web applications.

EDUCATION

Physmath school after Artashes Shahinyan High school	Yerevan, Armenia 2011-2015
--	-------------------------------

Russian Armenian (Slavonic) university Bachelor's Degree in International Relations	Yerevan, Armenia 2015-2019
